EDUCATION

Bachelor of Computing & IT (BCIT)

NED University of Engineering and Technology
Karachi, Pakistan · Expected Graduation: 2027

Specialization: Gaming & Animation · 4th Year

SKILLS & TOOLS

REACT · NEXT.JS · NODE.JS · JAVASCRIPT · POSTGRESQL · SUPABASE · PHP / LARAVEL · UNITY 3D / 2D · UNITY AR / VR · UNREAL ENGINE · BLUEPRINT SCRIPTING · LEVEL DESIGN · ENVIRONMENT ART · GAME UI DEV · META QUEST 3 / XR · BLENDER (BASIC) · CANVA

PROJECTS

TALEEM360 · AR LEARNING APP (FYDP)

BEST FYDP · TECHFEST 2026 · AR · 3D MODELS

Augmented-reality learning app for Class 6–10 students of Pakistani government schools. It turns textbook diagrams into 3D models that students explore part by part, so they can see how each part works and understand the course visually. Winner of Best FYDP at Techfest 2026, NED University.

> Role (Team FYDP · Sem 7 – Present): Subject tabs · 3D model integration · Ongoing development, continuing next semester

RFQ-TO-INVOICE SAAS · AVIATION PARTS TRADING

NEXT.JS · SUPABASE · MULTI-TENANT

Launched a multi-tenant SaaS that automates the RFQ-to-invoice workflow for aviation parts trading companies. Now in pilot with early customers.

> Role (Solo): Designed, built and shipped the full stack

LUDO MOBILE GAME BACKEND

NODE.JS · POSTGRESQL · UNITY

Backend for a Ludo mobile game, built in Node.js with PostgreSQL and connected to the Unity game client.

> Role: Backend development · Unity-to-Node.js integration

TINY VILLAGE

SHOWCASED · GAMECON 2026 · UNREAL ENGINE · SURVIVAL HORROR

Single-player survival horror game inspired by Dead by Daylight. The player activates enemy-guarded generators across an abandoned village to unlock a hidden escape route. Showcased at GameCon 2026 at NED University.

> Role (Team of 3): Full game environment · Generator & gate logic · UI systems · Contribution to combat system

UNDERWATER VR EXPERIENCE

META QUEST 3 · UNITY VR

Immersive VR ocean exploration deployed on Meta Quest 3. Players explore an underwater world from a submarine with full locomotion and gesture-based swimming controls.

Role (Team of 4): Full ocean exterior environment design & implementation

TWO LIGHTS ONE ESCAPE

1ST PLACE · GAMECON · UNITY 3D · LOCAL CO-OP

3D split-reality co-op puzzle platformer for two local players, who coordinate across mirrored rooms to escape together. Winner of GameCon at NED University (1st place).

Role (Team of 3): Level design for 2 levels · Environment art across majority of all levels

EXPERIENCE

Game Developer Intern

Jun 2026 - Aug 2026

Game Storm Studios (GSS) — Karachi, Pakistan

Worked at a professional game studio, gaining hands-on experience in game development workflows and practices.

IT Department Intern

DIL – Civic Center, Karachi

Gained exposure to professional IT operations and office workflows in a civic-sector organization.

ACHIEVEMENTS

BEST FYDP — TECHFEST 2026

Awarded Best Final Year Design Project at NED University's Techfest 2026 for *Taleem360*, an AR learning app for government school students.

1 **1ST PLACE — GAMECON**

Won first position with *Two Lights One Escape*. Prize & Logitech-sponsored gifts.

1 **1ST PLACE — NED DEPT.**

First position in departmental project evaluation. Certificate of excellence.
